About Me

A motivated computing professional with a completed Higher National Diploma (HND) in Software Engineering from IJSE and practical experience in web and software application development. Experienced in contributing to real-world software projects, with knowledge of frontend development, database management, API integration, and application functionality. Possesses strong problem-solving, teamwork, and adaptability skills, with a commitment to continuous learning and professional development. Aspiring to pursue a BSc (Hons) Computing (Top-Up) degree at a UK university to further strengthen technical knowledge, expand computing expertise, and build a successful career in the technology industry.

Experience *2025 – 2026*

Metana Company - Colpetty Colombo 03

Donely OpenClaw Project
